## GPS Tracking Reporting & Management

In today's litigious world with OH&S issues such as "Duty of care" being enforced, it is essential for fleet owners and managers to be totally aware of a vehicle's usage at all times.

Fleet Logistics has addressed the need to know where your vehicles are and how they are being driven 24/7. We provide you with a tracking and Management system in your vehicle and make reports and maps available on-line for your personal use.

Reports cover all aspects of your vehicles usage including speeding, driving hours, trip information, vehicle usage and much more.

Know everything about your vehicle's activities with the click of a mouse. Our website is designed to be powerful yet easy to use – We also include telephone support so that when you need us, we'll be there!

### **Saving Time and Money**

In the long run our management and reporting services will not cost you anything when compared to the savings you will make on the day to day running cost of your fleet.

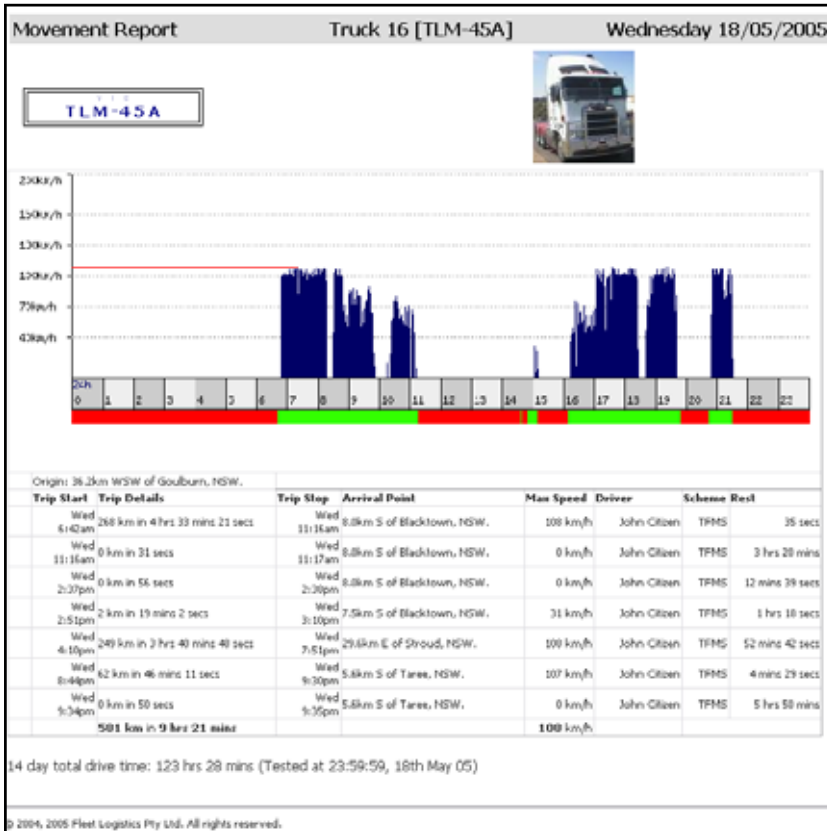

### Some of the benefits

- Better knowledge of your vehicles use**
- Lower maintenance bills**
- Improves chances of theft recovery**
- Extended life of brakes and tyres**
- Eliminate unauthorized vehicle use**
- Fleet management tool**
- Safer driving practices**
- Reduction in crashes and damage to vehicles**
- Increased driver and public safety**
- Reduced phone bills**
- Plus our services are TAX DEDUCTIBLE**
- Units to suit Heavy Vehicles, Cars and Civil/Earthmoving Machinery**

Identify and report on driving by day or week to  
ensure government compliances are met.

## Vehicle Tracking and Fleet Management Solutions

“Saving my company time and money”

“By using Fleet Logistics we have gained better control of our fleet. By having up to date knowledge we can utilise vehicles more efficiently, redirecting the best vehicle when new pickups are needed, saving time and money and gaining new business. We can better satisfy our customers by keeping them well informed regarding freight arrival times, and protect our staff and assets by checking driving times and how equipment is being used and treated.”

Bill Petersen,

AMO Asset Management Online

The Fleet Logistics FL6 is built as a reliable and easy to use, track and trace device for your most valued assets. With it's small size, it can be installed in tight fitting spaces ensuring it is easily out of sight. The FL6 is worth serious consideration if you value your property and how it may be used.

## Field Applications

### Found! Before it is lost....

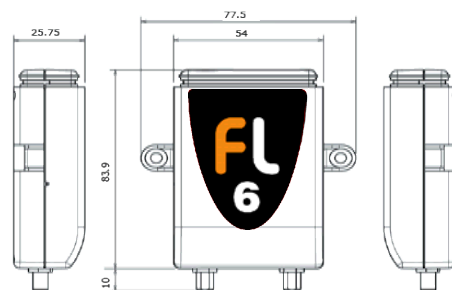

The next time thieves consider stealing your mobile assets, they would have to seriously re-consider if you have an FL6 installed.

Not only can you disable the ability to start the engine\*\* but you can also locate the item if it is moved by other means.

\*\* when fitted in conjunction with an FL6 immobilizer option

## Features

- Alert sending for indication of tampering, loss of power and exceeding of speed limits.
- Configure unit setup over the air
- Ignition On & Off reporting
- Logging of positions while out of GPRS range.
- Duress Emergency button.
- Geo-fencing ( know when an asset leaves or arrives at a particular location)
- SMS Alerts ( \*\* additional charges apply )
- Live online website reporting
- Movement Alert

Dimension in (mm)

## GPS Receiver Performance

- 16 Channels GPS
- Accuracy of 2.5 metres (CEP)
- Start Time (seconds)  
- Cold:41 / Warm:33 / Hot:3.5
- NMEA-0183 Protocol: Supported

## Environmental Data

- Operation Temperature: -20 °C to 50 °C
- Storage Temperature: -40 °C to 85 °C

## Humidity

- Relative Humidity: 23 °C / 55% RH

## Vibration

- Vibration: MID-STD-810F STANDARD

## Power

- Power Input: 12Vdc/24vdc
- Current Consumption: 300mA Typical
- Rechargeable 1200mAh Li-Ion Battery

## Interface Ports

# 14 Pin Communications Connector

- Power Input: 12Vdc/24vdc
- 2 X Digital Input Ports
- 1 X Digital Output Ports

## All-Vehicles Including

## Buses

## And Truck's
